

Qualified Workers

Connecting lowans to jobs
and employers to workers...

And we do it for FREE.

lowa*WORKS*

Qualified Employees Work

The hiring process can be frustrating. Interviewing unqualified candidates wastes time and money. Meeting with industry-trained employees reduces hiring time, increases hire quality and ultimately lowers employee turnover.

Job-Ready Candidates

We work closely with industries to identify training needs. With input from industry professionals, our training programs build technical skills, as well as critical thinking and soft skills.

Building Talent Pipelines

Talent pipelines built for these key industries:

- Advanced Manufacturing
- Financial Services
- Healthcare
- Information Technology
- Transportation and Logistics

Relocating Workers

Despite worker shortages, layoffs still happen. Connect with industry veterans caught in the crossfire of economic hardship or improved technology.

Customized Workers

For up to six months, we'll reimburse 50 percent of worker wages paid for on-the-job training and apprenticeships.
